

Versatility packed with performance

More inputs. More outputs. More accuracy.

With its simple USB connection the P412 is the optimal choice for providing audio for video conferencing, phone conferencing, public address, and assistive listening systems.

P412 supports up to 12 input channels and 12 output channels giving you more options for your A/V needs. Want to use a Skype connection without feedback? P412 can be configured for that. The 12 input channels can be routed and mixed to any of the 12 output channels.

CUTTING EDGE FEATURES UNLIKE ANY OTHERS!
